> More durable and professional than traditional paper certificates

Get Your Deposits Faster

Most business owners would like to have charges to their business deposited into their account as quickly as possible. In an effort to be responsive to the needs of our merchants, Eliot offers Next Day Funding for many businesses. Next day funding will allow merchants to receive their deposits the day following each sale if they batch out by 5:55 p.m., CST. Any transactions batched out after this deadline will be deposited the second business day.

Next day funding is available free of charge to merchants who agree to a standard three-year contract. Speak with your Eliot representative to see if your business is a candidate for next day funding.
